DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following invention is required under 35 U.S.C 121:
 - A. Claims 1-21, and 23-28 are drawn to a method and system for monitoring usage of an electronic device, classified in **class 709, subclass 224**.
 - B. Claim 22 is drawn to a method for restricting computer usage, classified in **class 709, subclass 225**.
2. Inventions A and B are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention A has separate utility such as a method and system for monitoring usage of an electronic device, classified in a different *Class/Subclass*. Invention B has separate utility such as a method for restricting computer usage, classified in a different *Class/Subclass*. See MPEP 806.05(d).
3. The inventions are distinct, each from the other because of the following reasons:
 - (a) these inventions have acquired a separate status in the art as shown by their difference classifications.
 - (b) the search required for each Group is different and not co-extensive for examination purposes.

Art Unit: 2143

For example, the searches for the two inventions would not be the co-extensive because these Groups would require different searches on PTO's classification class and subclass as following:

The Group A search (claims 1-21, and 23-28) would require use of search **class 709, subclass 224** (not required for the invention B).

The Group B search (claim 22) would require use of search **class 709, subclass 225** (not required for the invention A).

For the reasons above restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17 (i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alina N Boutah whose telephone number is (703) 305-5104. The examiner can normally be reached on Monday-Friday (8:30 am-5:30 pm).

Art Unit: 2143

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David A Wiley can be reached on (703) 308-5221. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 746-9112 for regular communications and (703) 305-3718 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3900.
